

DATUM INTERNATIONAL LIMITED

("Datum International")

(PLUS-quoted (DATP))

ANNOUNCEMENT RE: NEW BUSINESS WIN

Datum International is pleased to announce that it has gained its first FTSE 100 customer for KnowledgeWorker in Severn Trent Plc's subsidiary, Severn Trent Services ("STS"). The deal was won by its partner FD Systems, Sage's No1 UK partner. KnowledgeWorker® will be used by STS, in conjunction with its Sage 500 system, for: -

- Web-based Purchase Requisition creation and approvals, controlling the purchasing of goods & services throughout the organisation with subsequent creation of the approved Purchase Order within Sage 500;
- Supplier Purchase Invoice processing and approvals, using KnowledgeWorker's Scanning module and Optical Character Recognition to automatically post Invoices into Sage 500 after being approved;
- Management of and Collaboration on Projects within STS including drawings and other technical documentation; and
- General Document Management.

For both the Purchase Requisitions and Supplier Invoice processing solutions, the KnowledgeWorker Workflow engine will be used to capture the relevant information from web based forms and then present the information to appropriate line managers for their approval. The system will utilise email notifications and escalation procedures to ensure that events happen in an orderly and timely manner and that organisational policies are strictly adhered to.

In a difficult economic climate, solutions for Purchase Requisitioning and Supplier Invoice Processing and approvals helps organisations both control and reduce their costs. We are pleased to say that a number of companies are now reviewing these new modules. These solutions are now available for Sage 200, 500 and 1000 ERP systems and can also be deployed as stand-alone solutions or integrated with other third party Accounting & ERP systems.

#### About Datum International

Datum International is the author of the Enterprise Content Management solution KnowledgeWorker®. KnowledgeWorker® is sold and supported internationally through a growing network of Distributors, OEM's and Reseller partners. KnowledgeWorker® creates competitive advantage by enabling Employees, Customers and Suppliers to Collaborate on Information and to participate in managed and audited Business Processes. KnowledgeWorker® empowers organisations to make sense of un-structured data and to deploy the information directly into their "front office" and "back office" processes. The system comprises of a fully integrated suite of

modules for Document Management, Scanning, Business Process Management, Collaboration, Enterprise Search and “on-the-fly” Publishing to Web Sites, Intranets and Portals.

The Directors of the Issuer accept responsibility for this announcement.
