UNAUDITED INTERIM RESULTS FOR THE HALF YEAR ENDED 31st OCTOBER 2009

The Board of Datum International (Datum) is delighted to report on an encouraging set of half year's figures released today.

Revenues for the first 6 months of trading under new its new Chief Executive David Hornsby totalled £407k, a 107% increase against the previous corresponding six-month period. This strong upturn in revenues, coupled with a reduction in operating expense has resulted in a half-year profit of £74k, compared with a loss of £159k for the same calendar period last year.

Commenting on these results David Hornsby said:

"I am pleased to be able to report such a turnaround in such a short space of time. When I arrived at Datum, I knew the company had great potential. We have strengthened the sales team with some excellent hires and have appointed some very effective and dynamic resellers.

We have also started on some strategic initiatives which we believe will have a significant and long-term effect on the business. This leaves us looking ahead to our second half year and beyond with confidence"
